Base map information shown on this FIRM was provided by the State of Tennessee, Department of Finance & Administration, Strategic Technologies Solutions, GIS Services at <https://tnmap.tn.gov/>. Data was also obtained from the United States Geological Survey. Ortho Imagery was originally produced by the Tennessee Department of Transportation in 2013 and has a 10 inch ground sample distance.

The map reflects more detailed and up-to-date stream channel configurations than those shown on the previous FIRM for this jurisdiction. The floodplains and floodways that were transferred from the previous FIRM may have been adjusted to conform to these new stream channel configurations. As a result, the Flood Profiles and Floodway Data tables may reflect stream channel distances that differ from what is shown on the map.
